# INDEX TO VOLUME 17

Compiled by Austin W. Morrill, Jr.

## Subject Index

Adulticides, cage test for evaluating in field, 194
  dosage tests, 190
*Aedes*
  *aegypti,* female reproductive system development (Rev.), 58
    laboratory rearing, simplified method for large scale, 25
    larvae and pupae in light and temperature gradients (Rev.), 325
    larvae, susceptibility to DDT and dieldrin (Rev.), 327
    synthesis of amino acids, 248
    susceptibility of larvae to DDT and dieldrin (Rev.), 327
  *atropalpus,* in western Maryland, 318
  *taeniorhynchus,* dispersal characteristics near Savannah, Ga., 202
    dispersal characteristics, Part II, 233
    in Florida, use of malathion, pyrethrum and allethrin against, 184
  *triseriatus,* egg incubation and colonization, 33
*Aedomyia squamipennis,* distribution in Panama, 98
Africa, East, malaria research in (Op. Note), 101
Alaska, McKinley Park region, mosquito reconnaissance, 17
  snipe flies, habitat and males, 94
Albuminoid ammonia, in breeding *Anopheles sundaicus,* 102
Allethrin, malathion and pyrethrum, against *Aedes taeniorhynchus* in Florida, 184
Amino acids, synthesis, in *Aedes aegypti,* 248
Anesthetization, continuous, of haematophagous insects, 83
Annual meeting, papers and proceedings, Part I, 137; Part II, 233
*Anopheles*
  *algeriensis,* in western France, 97
  heart rate, effects of various poisons, 214
  *minimus,* resting places in Taiwan houses (Rev.), 326
  *quadrimaculatus,* DDT tolerance, new standard for detection, 1
  *sundaicus,* role of albuminoid ammonia in breeding, 102
Association News, 1957 meeting announcement, 50
  1958 meeting announcement, 319
  minutes of 13th Annual Meeting, 1957, 104
Bacteria, relationship between, and sewage-inhabiting insects, 299
Bibliography (see References to Literature)
Blackflies, (*Simuliidae*), identification of blood meals, 37
  in slow moving streams, larvicide tests, 261
Blood meals, identification, of blackflies attacking farm animals, 37
Brazil, breeding places of *Culicoides* spp., 312
Breeding place, artificial, new in New Mexico, 314
Breland, Osmond P., brief biography, 323
Brick dust, the case of the vanishing, 303
Buehler, Milton, brief biography, 323
California, importance of organic phosphorus insecticides, 168
California, mosquito control past and present, 164
Canada, summary report on mosquito control, 160
Carpenter, Stanley, brief biography, 322
Collecting techniques, tree hole breeders, 305
Collins, Donald L., brief biography, 323
Compulsory elimination of breeding areas, legal aspects, 277
Control, biological, present and future, 143
Control, mosquito, relation to taxonomy, 147
Copepod, predaceous on mosquito larvae, 99
*Culex*
  *pipiens,* N. American distribution, 223
  *quinquefasciatus,* N. American distribution, 223
    resistance to chlorinated hydrocarbons, Okinawa, 92
    dieldrin, Puerto Rico, 216
    winter breeding, Columbus, Georgia, 29
  *salinarius,* gynandromorphism, 318
  *tarsalis,* seasonal abundance in Texas, 102
  *tritaeniorhynchus,* laboratory colony observations, 308
*Culicoides furens,* at Vero Beach, Florida, 292
  *obsoletus,* and other biting midges, Mt. Solon, Va., 77
  *spp.,* breeding places in Brazil, 312
DDT, effects of known repeated oral doses (Rev.), 58
  tolerance, new standard for detection in *A. quadrimaculatus,* 1
DDVP, results of field trials, 296
Delaware, tidal marsh mosquitoes (Rev.), 325
Dieldrin, resistance of *C. quinquefasciatus* in Puerto Rico, 216
Dispersal, *A. taeniorhynchus,* near Savannah, 202, 248
Ditching, effectiveness in controlling salt-marsh mosquitoes, 265
Dry ice, continuous anesthetization of haematophagous insects, 83
Edgar, S. A., brief biography, 125
Edmunds, Lafe R., brief biography, 54
Egg incubation and colonization of *Aedes triseriatus,* 33
Emulsion, a practical, long-lasting, 74
Farm animals, identification of bloodmeals of black flies, 37
Florida, *Culicoides furens* at Vero Beach, 292
  Malathion, pyrethrum and allethrin against *A. taeniorhynchus,* 184
  Phosphorus insecticides against salt-marsh mosquitoes, 180

Fish, cold water game, toxicity of organic phosphate insecticides, 213
Frohne, Wm., brief biography, 222
Georgia, dispersal of *A. taeniorhynchus* near Savannah, 202
winter breeding of *Culex quinquefasciatus* in Columbus, 29
Gerry, Bertram, brief biography, 55
Graham, O. H., brief biography, 323
Gynandromorphism, in *Culex salinarius,* 318
*Haemagogus equinus,* additional United States record, 86
Heart rate, *Anopheles,* effect of various poisons, 214
Helicopters, Navy development of insecticide dispersal apparatus, 289
Hirst, John M., brief biography, 126
Hosoi, Teruhiko, brief biography, 54
Howard, L. O., Centennial (Editorial), 103
Illinois, mosquito control, 161
Insecticide industry, how it can assist in mosquito control, 251
dispersal apparatus, Navy development of helicopters, 289
Insecticides, against adult mosquitoes, 254
influence of temperature and humidity (Rev.) 326
resistance, at some Naval activities, 258
transportation, 282
Irrigated pastures, minimizing mosquito breeding, 268
Irrigation water, tests on water soluble insecticides, 198
Keys to the genera of larvae and adult mosquitoes in the U. S., 294
Laboratory colony, *Culex tritaeniorhynchus,* 308
rearing, large scale, *Aedes aegypti,* simplified method, 25
egg incubation and colonization of *Aedes triseriatus,* 33
Larvicide, emulsion type, practical, long-lasting, 74
Larvicides, water soluble, in irrigation water, 198
Legal aspects of compulsory elimination of mosquito breeding areas, 277
Local abatement district programs, a decade of source reduction, 280
Malaria research in East Africa, 101
status of control in Thailand, 90
Maryland, mosquito control, 153
Western, occurrence of *Aedes atropalpus,* 318
Malathion, allethrin and pyrethrum against *Aedes taeniorhynchus,* Florida, 184
Meeting, 13th Annual, minutes and attachments, 104
Mississippi, rice fields, organic phosphate insecticides for *Psorophora,* 173
Mist sprayer, a new wheel mounted, 286
Mountain mosquito reconnaissance in McKinley Park region, Alaska, 17
Mosquito control, how can the insecticide industry assist, 251
McFeely, Otto, brief biography, 126
McKinley Park, Alaska, mountain mosquito reconnaissance, 17
McNeel, Travis, brief biography, 222
National Mosquito Extermination Society, 1904 (Editorial), 52
Navy, development of insecticide dispersal apparatus for helicopters, 289
New Jersey, mosquito control, 154
New Mexico, a new artificial breeding place for mosquitoes in, 314
New York State, mosquito control, 1956, 156
Nassau County, Long Island, (N. Y.) ten-year larval and adult collections, 315
News and Notes, 53, 123, 220, 320
Nicaragua, sylvan yellow fever (Rev.), 223
Ohio, mosquito control, 161
Okinawa, new distribution records, 82
resistance by *Culex quinquefasciatus* to chlorinated hydrocarbons on, 92
Omori, Nanzaburo, brief biography, 55
Operational and Scientific Notes, 101, 216, 318
Organic phosphates (see Phosphate insecticides)
Oxygen consumption of some adult mosquitoes (Rev.), 223
Panama, distribution of *Aedomyia squamipennis,* 98
Past presidents, A.M.C.A., list, 55
Pastures, irrigated, minimizing mosquito breeding, 268
Pennsylvania, mosquito control, 156
Phosphate insecticides, organic, granular formulations, 168
in California, 168
in Florida, against salt-marsh mosquitoes, 180
in Mississippi, for *Psorophora* control, 173
toxicity to cold water game fish, 213
Predator, copepod, on mosquito larvae, 99
Preference trap, rotary, 14
*Psorophora,* in Mississippi rice fields, organic phosphate insecticides, 173
Puerto Rico, resistance of *C. quinquefasciatus* to dieldrin, 216
Pyrethrum, malathion and allethrin, against *Aedes taeniorhynchus* in Florida, 184
Quarterman, Ken, brief biography, 55
